Growth of a \$10,000 Investment (Class A shares without sales charge)

June 30, 2000 - June 30, 2010

The graph is for illustrative purposes only and reflects the hypothetical growth of a \$10,000 investment with all distributions reinvested. Past performance does not predict future results. Performance shown in the graph and calendar year total returns reflects expenses and management fees, but does not reflect sales charges. If performance had included the appropriate sales charge, returns would be lower.

Important Disclosure

Data shown is historical performance for each share class and reflects reinvested distributions. With Max Sales Charge performance data includes the maximum 5% sales charge for Class A shares. Class I shares do not impose a sales charge. Only eligible investors may purchase Class I shares, as described in the Prospectus. Investment return and principal value will vary so that you may have a gain or loss when you sell shares. Past performance does not guarantee future results; current performance may be higher or lower than data quoted. Large company stocks as a group could fall out of favor with the market and underperform investments that focus on small and mid-sized company stocks.
